

CASE MANAGEMENT SYSTEM

With Larimore's Case Management System, your detectives can spend more time investigating cases and less time on coordination work.

This easy-to-use software gives detectives the ability to assign work to investigating officers and track their efforts - every step of the way. As a result, getting a full update on the status of an investigation takes seconds.

Investigative management simplified

- ◆ Detectives can assign specific tasks to officers; officers in turn can easily update their progress in the system and can record the number of hours expended
- ◆ Fully integrated with Incident System – users can easily review information recorded in one system while using the other
- ◆ Flexible security settings allow detectives to restrict information to only those authorized to see it

Robust suite of standard reports

- ◆ Case Assignment by Detective
- ◆ Case Assignment by Case Number
- ◆ Work Analysis by Detective
- ◆ Work Analysis by Case Number
- ◆ Past Due Assignments
- ◆ Missing Case Reports
- ◆ Officer Daily Activity Log
