

CRIME ANALYSIS MAPPING

The Crime Analysis Mapping interface is designed to provide departments with a graphical representation of standard text-only management reports.

Several different maps can be generated

- ◆ Maps can display:
 - all crimes committed within a specific time frame
 - all crimes committed within a specific area of the jurisdiction
 - a specific type of crime within a particular time frame
 - a specific type of crime within a particular area
- ◆ Maps can be printed

Larimore utilizes the product CrimeView®

- ◆ Developed by The Omega Group of San Diego, California
- ◆ Flexible, easy-to-use product
- ◆ Complements Larimore's other reporting tools

Larimore's Crime Analysis Mapping interface equips your department with a valuable resource - a clearer view of what is happening within your jurisdiction! Use it to gain a better understanding of how to target your resources.
