

## DRUG TASK FORCE

*Track all details related to drug investigations with this highly customizable solution from Larimore.*

This unique system was designed specifically for use by drug-investigative units.

### Track all investigative details

- ◆ Track information about cases, purchases, evidence and confidential informants
- ◆ Names and vehicles entered into the system are validated against the Master Name and Master Vehicle Systems – allowing officers to know if either was encountered previously

### Fully integrates with other Larimore systems

- ◆ Integration with Arrest Management, Case Management and Property Tracking systems minimizes or eliminates dual entry
- ◆ If UCR-reportable information is reported, the data is automatically included in monthly UCR reports

### Flexible system conforms to your needs

- ◆ Users can choose the types of records they want to enter
- ◆ Optional templates allow users to type in applicable information and attach the document to the case
- ◆ Can be integrated with Microsoft Word for unlimited narrative; or the built-in narrative, which features full spell-checking capabilities, can be used

### Powerful searching and reporting features

- ◆ Comprehensive, flexible search function allows users to quickly find records based on a wide variety of parameters

### Standard reports:

- ◆ Confidential Funds
- ◆ Report of Weights & Dollars
- ◆ Agent Activity Report
- ◆ Buy Book Report
- ◆ Case Status
- ◆ Case Assignment

### Standard forms:

- ◆ Incident Report
- ◆ Continuation Form
- ◆ Evidence Receipt
- ◆ Arrest Forms

### Standard templates:

- ◆ Operational Enforcement Plan
- ◆ Search Warrants
- ◆ Affidavits
- ◆ Return & Inventory

**Photo Imaging add-on allows you to attach photos to each case file**

**No other solution on the market is as tailored to the needs of drug-investigation units as Larimore's Drug Task Force System is. Contact us today to set up a demo!**
