

## INTERNAL AFFAIRS / EARLY WARNING SYSTEM

*Larimore's Internal Affairs System tracks all aspects related to the internal investigation of situations and personnel.*

This easy-to-use software gives internal affairs officers the ability to track their efforts every step of the way. As a result, getting a full update on the status of an investigation takes seconds.

### Investigative management simplified

- ◆ Record all data related to the investigation such as reported date, names of individuals related to the investigation and current status
- ◆ System allows officers to include more than one complaint per record
- ◆ Comprehensive tracking on all Transactions, Findings and Disciplinary Actions
- ◆ Flexible security settings allow officers to restrict information to only those authorized

### Fully functional spell-check system

- ◆ Narrative records include full spell-check functionality as well as the ability to cut, copy and paste; text can be copied from other narrative records

### Process mailings with minimal effort

- ◆ Provides templates for letters
- ◆ Prints Letters of Findings
- ◆ Letters are addressed and ready for use in standard window envelopes

**Larimore's Internal Affairs System takes the guesswork out of investigative record-keeping.**

**With it, you can give your internal affairs officers the tools they need to work more effectively.**
