

UCR

Larimore's Uniform Crime Reporting (UCR) software makes completing state required UCR Reports each month easier than ever.

This module prints UCR Reports based on data entered into Larimore's Incident and Arrest Systems – the software handles all the necessary calculations.

Reduce errors and maximize accuracy

- ◆ Auditing function allows you to determine, before reports are run, where errors might occur, so that corrections can be made
- ◆ System can be modified to work in any state – Larimore has extensive experience in customizing to meet the requirements of various states
- ◆ UCR module is fully integrated with the Incident and Arrest Systems, so no duplication of entry is required

Migration to NIBRS

- ◆ Migrating to NIBRS is fully supported – should your state require NIBRS, existing data would not have to be re-entered

Standard UCR Reports included with UCR module

- ◆ Return A
- ◆ Return A, Property 1
- ◆ Return A, Property 2
- ◆ Arrest Adult
- ◆ Arrest Juvenile
- ◆ Supplementary Arson Report

*Other reports may be created based on state requirements and as specified during system analysis.
